

# Remote Eyes® 4-Port Video Server with Handheld PDA Client

Use the Remote Eyes Video Server to view your existing CCTV cameras using a Windows Mobile compatible wireless handheld PDA. Efficient video compression makes this product network-friendly. View your cameras both on campus using WiFi and off-campus using cellular broadband.

## Product Features

- > 4 looped BNC video input ports
- > Windows Mobile compatible PDA client
- > Hardware video compression
- > RS232/485 port for PTZ control
- > IP addressable
- > Multi-site PDA client (optional)
- > Control PTZ cameras from PDA (optional)

## How to Order

Part Number	Description
IPSVR04	4-port IP-addressable video server. Basic PDA viewing client for unlimited PDA devices and remote connection to one video server.
PDAPTZ	PTZ control module for PDA client. Allows user to move most PTZ cameras using PDA client.
PDAMSITE	Multi-site connections for PDA Client. Allows connection to 6 IP servers with 4 cameras per server.
